

# District 100 | Division Names & Geography

Approve by DEC - July 8, 2017

After considering various names (based on flora, planets, explorers, etc.), we have identified names consistent with the history and culture unique to our geography. These names align with our present-day cities. Six division names are submitted; four more in anticipation of future growth. Care has been taken to select names that did not begin with B, D, E, and H. Division boundaries are approximate. White space is for clarity only. New clubs formed in white areas will be place after consultation with Division Directors.
